# General Sales Information

## Terms and Conditions of Sale

### **INSURANCE OF PURCHASES AND RISK**

Each animal becomes the property of and therefore is also the risk of the purchaser as soon as it is sold; except it shall be the obligation of the seller to see that animals are fed and cared for free of charge to purchaser, until loaded after the sale, whichever occurs sooner. Arrangements will be made to have insurance available when making settlement.

### **TERMS and BIDDING**

Terms of sale are cash or check to the clerk at the conclusion of the auction. Each animal will be sold to the highest bidder. The Auctioneer in charge will settle any disputes as to bids, and his decision on such matters shall be final.

### **HEALTH**

Each bull sold will be tested for brucellosis and TB no sooner than 24 days prior to sale date, and proper certificates will be furnished to purchaser guaranteeing the animals sold to be free from such diseases. All bulls are fertility examined and guaranteed breeders. Fertility guarantee and scrotal measurements will be furnished to buyer.

### **REGISTRATION AND TRANSFERS**

All animals have record papers and these will be transferred. Record information not in this catalog at press time will be supplied from the auction stand.

### **ANNOUNCEMENTS & SALE DAY SUPPLEMENT**

Printed Material On the Sale Day Supplement takes precedence over printed matter in this catalog. Announcements from the auction block will take precedence over printed matter on the sale day supplement or in this catalog. All animals will be sold by lot number as announced by the auctioneer. Every effort has been made to assure correctness of the catalog, and in most cases, information quoted concerning the animals is taken from the respective breed association's official records.

### **PERSONAL LIABILITY**

All persons who attend the sale do so at their own risk and the owners assume no liability, legal or otherwise, for any accident which may occur.

### **IDENTIFICATION**

Seller offers each animal with a readable tattoo corresponding to its catalog designation and registration when applicable.

### **BREEDING GUARANTEE AND DEFINITIONS**

1. All bulls are guaranteed to be breeders with the exception of . A) Injury or disease occurring to the animal after time of sale; B) Gross negligence or willful misconduct on the part of the purchaser; C) Animals shown competitively after being purchased from the Dickinson Simmental and Angus Ranch.

2. Bulls are guaranteed breeders if not allowed to run with the herd until at least 14 months of age. Any bull which either A) settles 1/3 or more of the healthy cows he serves; B) is the sire of 20 or more animals; or C) settles cows by natural service and passes a fertility test made by Dickinson Ranch consulting veterinarian during any 6 months trial (provided for in Paragraph 2 of the section of these sale terms and conditions entitled "Options and Privileges of Return or Adjustment") shall be considered a breeder. Any guarantees with respect to the ability to freeze semen shall be made by separate agreement between the Purchaser and Seller.

3. Females are guaranteed to be breeders, with the exception of:

- a) Female calves sold at side of dam

b) Injury or disease occurring to the animal after time of sale.

c) Gross negligence or willful misconduct on the part of the purchaser.

d) Females used in ovum transplant after time of sale.

e) Females shown competitively after time of sale.

f) Cows sold with calf at side or a female that calves after sale to a breeding prior to the date of sale.

### **SELLER'S SEMEN RIGHT**

1. Seller reserves the right to keep a breeding interest with/without possession, in any bull so designated in this catalog or during the auction. Future semen collections of the bull must be made known to all owners. These collections and costs will be divided according to each owner's interest, unless otherwise agreed upon mutually by all owners.

2. On any and all other bulls in the sale which are collected in the future, Seller reserves the right to 100 vials of semen with registration rights and will pay his portion of the collection costs.

### **OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT**

1. The following adjustments do not preclude the right of the Purchaser and seller to mutually agree upon other terms and conditions for settlement of any dispute. All claims for adjustment or refund must be made in writing either within six months from the date of sale or no later than when the animal reaches 24 months of age, whichever occurs later, with the exception of claims involving parentage of defects.

2. All returns or refunds will be paid in the form of a credit.

a) This credit will be limited to the purchase price less the salvage value of the animal and usage fees.

1) Salvage value=Market price x greater of sale day weight as listed in this catalog or current weight.

2) Usage fee is set at 25% of purchase value of the animal for each season of use.

3. In the event an animal is claimed to be a non breeder, the animal may be returned to the ranch of the seller, at Purchaser's expense, if in good physical condition, and the return is in compliance with the health requirements of the seller's state. The seller shall be entitled to a six (6) month trial period following the return of the animal in which to prove that the animal is a breeder. If at the end of six (6) months the seller is unable to prove the animal is a breeder, the seller shall, at the option of the purchaser, replace the animal with another of equal value or grant the Purchaser a credit on any products marketed by Seller. Either of these options shall be deemed full satisfaction and settlement. IF the Seller proved the animal to be a breeder, it shall be the obligation of the Purchaser to take delivery of the animal and pay all expense incurred for transportation. The Dickinson Ranch consulting Veterinarian will make the determination of breeder or non breeder.

### **RIGHTS AND OBLIGATIONS**

The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding on both. Animals resold following purchase in this sale shall constitute a separate transaction and the rights and obligations of the parties connect thereto are not covered by the above terms and conditions of this sale. Neither the owners, auctioneers, nor any other person connected with the management or conduct of this sale assumes any liability, legal or otherwise, except as set forth.

Dear Friends,

Welcome to our 37th Production sale. We are really excited about this sale offering. The bulls and heifers are truly the best we have ever offered for sale. The late summer rains allowed for later grazing, therefore we decided not to wean the calves until the first week of November. With the dry mild winter, the cattle have performed well and are right on track.

For those of you who are just starting to follow our breeding program. We would like to emphasize that we are committed to providing honest top quality genetics. These cattle will work on limited resources. Last year our females, including the first calf heifers, grazed on stock piled grass with a supplement of liquid protein with chelated minerals for twenty dollars per head, or 20 cents per head per day, for 100 days.

The Registered heifers are straight off the top. They are big ribbed and very uniform. If you want to capitalize on our rigid selection pressure of survival of the fittest, these heifers are true herd builders.

The bulls are designed to be functional. They have optimum growth numbers and carcass traits. We are not selecting for single traits, maximum growth or milk, but cattle that will help you lower your costs and function on your resources.

Our customers continue to tell us how pleased they are with their past purchases. Many have done well on the U.S. Premium grid and we are truly excited about their close out sheets. More than that! Our customers tell us every day how good the females work and how the daughters of past sale bulls really hold up and continue to last for them. The first time buyers come back telling they can't believe how our females can lay down and calve and have their calf up nursing while their other heifers are laboring much longer.

We hope to see you on sale day! If you can't make it to the ranch on sale day we would be glad to help you bid on the phone or you can make arrangements with

*Sincerely,  
The Dickinson Family*

## **Know the Complementary Effects Before Making Your Bull Selection 2+2=5 (Heterosis)**

“A Simmental crossbred cowherd - with milk production bred in -  
is essential for maximum returns.”

Before purchasing your next group of herd bulls, we recommend you study the complementary effects of the breeds at which you are looking. Here is a checklist to consider as you plan your crossbreeding program:

1. **Superior Breeding Stock** - You should first choose the breeds that will supply you with the genetics you require in your breeding program. The primary requirement for crossbred cattle is superior breeding stock - either purebred or crossbred from performance - proven lines. Find the best animals available, with the traits that you want to improve in your herd. The better the individuals, the better your crossbred will be.

Outstanding mothering ability, fast, efficient growth and desirable carcass yield make Simmental very effective as either maternal or terminal crosses. This capability of working both ways is an advantage of Simmental in a crossbreeding program.

2. **Growth in Calf** - High growth cattle are in demand today. Bigger, heavier calves at weaning are the major goal of most crossbreeding programs. When they weigh more, they pay more, even factoring in those so-called “premiums” for lighter weight cattle.

Hybrid vigor ( the boost in productivity that results from crossing two unrelated breeds of cattle) alone will increase weaning weights. Crossbreeding with Simmental will result in maximum hybrid vigor combined with superior growth and carcass cut ability.

3. **Milk in the Cow** - Crossbred calves are unable to fulfill their greater growth potential unless your cows have milking ability. This is why a Simmental crossbred cowherd - with milk production bred in - is essential for maximum returns.

4. **Carcass Desirability** - Today’s market demands lean, high yielding carcasses that grade High Select Choice. Crossbred Simmentals produce carcasses with outstanding Yield Grade - a high percentage of lean and minimum waste fat in addition to the desired Quality Grade. Simmental-cross cattle have been superior in steer carcass futurities nationwide and are gaining popularity in the feed lot and packing sectors every day.

5. **Complementary Breeding** - To be effective and profitable, the breeds selected for use in a crossbreeding program must “complement “ each other. Simmental excel in their ability to cross with - complement - the American beef herd available today. Simmental not only add growth, feed efficiency and muscle to the mix but they also have the added features of sound udders, more abundant milk and improved efficiency.

To meet today’s demand for efficient, fast-gaining, high yielding cattle that return maximum profits, you have to take a close look at SimGenetics.

6. We think the Simmental - Angus cross is almost ideal. Angus helps provide marbling and the Simmental adds growth and lean yield. A half Simmental half Angus commercial cow is hard to beat. (2+2=5)

## **Ultrasound**

We continue to ultrasound our sale bulls for back fat and marbling. There are some real differences in marbling. If you are wanting to be in the fore front of the new age of cattle selection, where value added is the buzz word then you as cattlemen need to start looking at marbling. Just because they are black hided doesn’t mean they will grade choice.

We feel we have the genetics to help you become successful in raising the type of cattle the Industry is looking for. Fast gaining cattle with minimal back fat and the ability to grade.

However, you have to be willing to retain ownership or partial ownership on your top quality cattle to benefit from your intelligent genetic selections from yesterday and today. Don’t let someone else reap the profits from your genetically engineered program.
